

## COMMISSION REGULATION (EU) 2022/78

of 19 January 2022

**amending Annexes II and III to Regulation (EC) No 396/2005 of the European Parliament and of the Council as regards maximum residue levels for dazomet, hexythiazox, metam and methylisothiocyanate in or on certain products**

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 396/2005 of the European Parliament and of the Council of 23 February 2005 on maximum residue levels of pesticides in or on food and feed of plant and animal origin and amending Council Directive 91/414/EEC <sup>(1)</sup>, and in particular Article 14(1)(a) and Article 49(2) thereof,

Whereas:

- (1) For dazomet, hexythiazox and metam, maximum residue levels ('MRLs') were set in Part A of Annex III to Regulation (EC) No 396/2005.
- (2) For dazomet and metam, the European Food Safety Authority ('the Authority') submitted reasoned opinions on the existing MRLs in accordance with Article 12(1) of Regulation (EC) No 396/2005 <sup>(2)</sup>. It proposed a revised common residue definition based on methylisothiocyanate, the main metabolite for dazomet and metam. The residue definition should therefore be changed accordingly. The Authority recommended lowering the MRLs for grapefruits, oranges, lemons, limes, mandarins, apples, pears, quinces, medlars, loquats/Japanese medlars, apricots, cherries (sweet), peaches, plums, table and wine grapes, blackberries, dewberries, raspberries (red and yellow), blueberries, cranberries, currants (black, red and white), gooseberries (green, red and yellow), rose hips, mulberries (black and white), azaroles/Mediterranean medlars, elderberries, figs, table olives, kumquats, kaki/Japanese persimmons, kiwi fruits (green, red, yellow), prickly pears/cactus fruits, avocados, mangoes and granate apples/pomegranates. For other products, it recommended raising or keeping the existing MRLs. The MRLs for those products should be set in Annex II to Regulation (EC) No 396/2005 at the level identified by the Authority. The Authority concluded that concerning the MRLs for strawberries, beetroots, carrots, celeriacs/turnip rooted celeries, horseradishes, Jerusalem artichokes, parsnips, parsley roots/Hamburg roots parsley, radishes, salsifies, swedes/rutabagas, turnips, tomatoes, sweet peppers/bell peppers, aubergines/eggplants, okra/lady's fingers, cucumbers, gherkins, courgettes, melons, pumpkins, watermelons, Chinese cabbages/pe-tsai, kales, lamb's lettuces/corn salads, lettuces, escaroles/broad-leaved endives, cresses and other sprouts and shoots, land cresses, Roman rocket/rucola, red mustards, baby leaf crops (including brassica species), spinaches, purslanes, chards/beet leaves, herbal infusions from roots and hops, some information was not available and that further consideration by risk managers was required. As there is no risk for consumers, the MRLs for those products should also be set in Annex II to Regulation (EC) No 396/2005 at the level identified by the Authority. These MRLs will be reviewed; the review will take into account the information available within 2 years from the publication of this Regulation.
- (3) For hexythiazox, the Authority submitted a reasoned opinion on the existing MRLs in accordance with Article 12(1) of Regulation (EC) No 396/2005 <sup>(3)</sup>. It proposed to change the residue definition. The residue definition should therefore be changed accordingly. The Authority recommended lowering the MRLs for grapefruits, oranges, lemons, limes, mandarins, almonds, brazil nuts, cashew nuts, chestnuts, coconuts, hazelnuts/cobnuts, macadamias, pecans, pine nut kernels, pistachios, walnuts, apples, pears, quinces, medlars, loquats/Japanese medlars, peaches,

<sup>(1)</sup> OJ L 70, 16.3.2005, p. 1.

<sup>(2)</sup> European Food Safety Authority; Reasoned opinion on the review of the existing maximum residue levels for dazomet according to Article 12 of Regulation (EC) No 396/2005; EFSA Journal 2019;17(1):5562; and Reasoned opinion on the review of the existing maximum residue levels for metam according to Article 12 of Regulation (EC) No 396/2005; EFSA Journal 2019;17(1):5561.

<sup>(3)</sup> European Food Safety Authority; Reasoned opinion on the review of the existing maximum residue levels for hexythiazox according to Article 12 of Regulation (EC) No 396/2005; EFSA Journal 2019;17(1):5559.

blackberries, dewberries, raspberries (red and yellow), blueberries, cranberries, currants (black, red and white), gooseberries (green, red and yellow), rose hips, mulberries (black and white), azaroles/Mediterranean medlars, elderberries, tomatoes, sweet peppers/bell peppers, aubergines/eggplants, cucumbers, gherkins, courgettes, melons, pumpkins, watermelons, maize/corn and hops. For other products, it recommended raising or keeping the existing MRLs. The MRLs for those products should be set in Annex II to Regulation (EC) No 396/2005 at the level identified by the Authority. The Authority also concluded that concerning the MRLs for apricots, cherries (sweet), plums, soybeans and products of animal origin, some information was not available and that further consideration by risk managers was required. As there is no risk for consumers, the MRLs for those products should be set in Annex II to Regulation (EC) No 396/2005 at the level identified by the Authority. These MRLs will be reviewed; the review will take into account the information available within 2 years from the publication of this Regulation.

- (4) Existing Codex maximum residue limits (CXLs) were taken into account in the reasoned opinions of the Authority. CXLs, which are safe for consumers in the Union were considered for MRL setting.
- (5) As regards products on which the use of the plant protection product concerned is not authorised, and for which no import tolerances or CXLs exist, MRLs should be set at the specific limit of determination ('LOD') or the default MRL should apply, as provided for in Article 18(1)(b) of Regulation (EC) No 396/2005.
- (6) The Commission consulted the European Union reference laboratories for residues of pesticides as regards the need to adapt certain LODs. As regards several substances, those laboratories concluded that, for certain commodities, technical development requires the setting of specific LODs.
- (7) Based on the reasoned opinions of the Authority and taking into account the factors relevant to the matter under consideration, the appropriate modifications to the MRLs fulfil the requirements of Article 14(2) of Regulation (EC) No 396/2005.
- (8) Through the World Trade Organisation, the trading partners of the Union were consulted on the new MRLs and their comments have been taken into account.
- (9) Regulation (EC) No 396/2005 should therefore be amended accordingly.
- (10) In order to allow for the normal marketing, processing and consumption of products, this Regulation should provide for a transitional arrangement for products which have been produced before the modification of the MRLs and for which information shows that a high level of consumer protection is maintained.
- (11) A reasonable period should be allowed to elapse before the modified MRLs become applicable in order to permit Member States, third countries and food business operators to prepare themselves to meet the new requirements which will result from the modification of the MRLs.
- (12) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

#### *Article 1*

Annexes II and III to Regulation (EC) No 396/2005 are amended in accordance with the Annex to this Regulation.

*Article 2*

Regulation (EC) No 396/2005 as it stood before being amended by this Regulation shall continue to apply to products which were produced in the Union or imported into the Union before 9 August 2022.

*Article 3*

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

It shall apply from 9 August 2022.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 19 January 2022.

*For the Commission*  
*The President*  
Ursula VON DER LEYEN

---

## ANNEX

Annexes II and III to Regulation (EC) No 396/2005 are amended as follows:

(1) in Annex II, the following columns for dazomet, hexythiazox, metam and methylisothiocyanate are added:

“Pesticide residues and maximum residue levels (mg/kg)

Code number	Groups and examples of individual products to which the MRLs apply <sup>(*)</sup>	Methylisothiocyanate (resulting from the use of dazomet or metam)	Hexythiazox (any ratio of constituent isomers) (F)	Dazomet (see methylisothiocyanate)	Metam (see methylisothiocyanate)
(1)	(2)	(3)	(4)	(5)	(6)

(\*) Limit of analytical determination

(†) For the complete list of products of plant and animal origin to which MRLs apply, reference should be made to Annex I.

#### **Methylisothiocyanate (resulting from the use of dazomet or metam)**

- (+) The European Food Safety Authority identified some information on residue trials on metam as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 20 January 2024, or, if that information is not submitted by that date, the lack of it.

**0152000 (b) strawberries**

- 
- (+) The European Food Safety Authority identified some information on residue trials on dazomet including analysis of parent and metabolites convertible to N, N'-dimethylthiourea (DMTU) and toxicological data on DMTU as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 20 January 2024, or, if that information is not submitted by that date, the lack of it.

**0213000 (c) other root and tuber vegetables except sugar beets**

**0213010 Beetroots**

**0213020 Carrots**

**0213030 Celeriacs/turnip rooted celeries**

**0213040 Horseradishes**

**0213050 Jerusalem artichokes**

**0213060 Parsnips**

**0213070 Parsley roots/Hamburg roots parsley**

**0213080 Radishes**

**0213090 Salsifies**

**0213100 Swedes/rutabagas**

**0213110 Turnips**

**0213990 Others (2)**

The European Food Safety Authority identified some information on residue trials on metam and on the nature of residues in processed commodities as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 20 January 2024, or, if that information is not submitted by that date, the lack of it.

**0231010 Tomatoes**

- (+) The European Food Safety Authority identified some information on residue trials on dazomet including analysis of parent and metabolites convertible to N, N'-dimethylthiourea (DMTU) and toxicological data on DMTU as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 20 January 2024, or, if that information is not submitted by that date, the lack of it.

**0231020 Sweet peppers/bell peppers**

- (+) The European Food Safety Authority identified some information on residue trials on metam and on the nature of residues in processed commodities as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 20 January 2024, or, if that information is not submitted by that date, the lack of it.

**0231030 Aubergines/eggplants**

- (+) The European Food Safety Authority identified some information on residue trials on dazomet including analysis of parent and metabolites convertible to N, N'-dimethylthiourea (DMTU) and toxicological data on DMTU as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 20 January 2024, or, if that information is not submitted by that date, the lack of it.

**0231040 Okra/lady's fingers**

- (+) The European Food Safety Authority identified some information on residue trials on metam and on the nature of residues in processed commodities as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 20 January 2024, or, if that information is not submitted by that date, the lack of it.

**0232000 (b) cucurbits with edible peel**

**0232010 Cucumbers**

**0232020 Gherkins**

**0232030 Courgettes**

**0232990 Others (2)**

- (+) The European Food Safety Authority identified some information on residue trials on dazomet including analysis of parent and metabolites convertible to N, N'-dimethylthiourea (DMTU) and toxicological data on DMTU as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 20 January 2024, or, if that information is not submitted by that date, the lack of it.

**0233000 (c) cucurbits with inedible peel**

**0233010 Melons**
